 Dot only = blank canvas. 0 = white paint. Letters = other paint colors.

Detailed pages repeat 3 rows or columns. Count repeated stitches once.

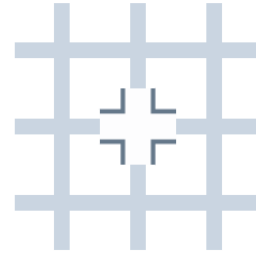

Follow the letter, not the screen tint. Printed color can vary.

# How the chart maps to needlepoint canvas

Each chart square tells you which woven crossing to paint.

Chart square

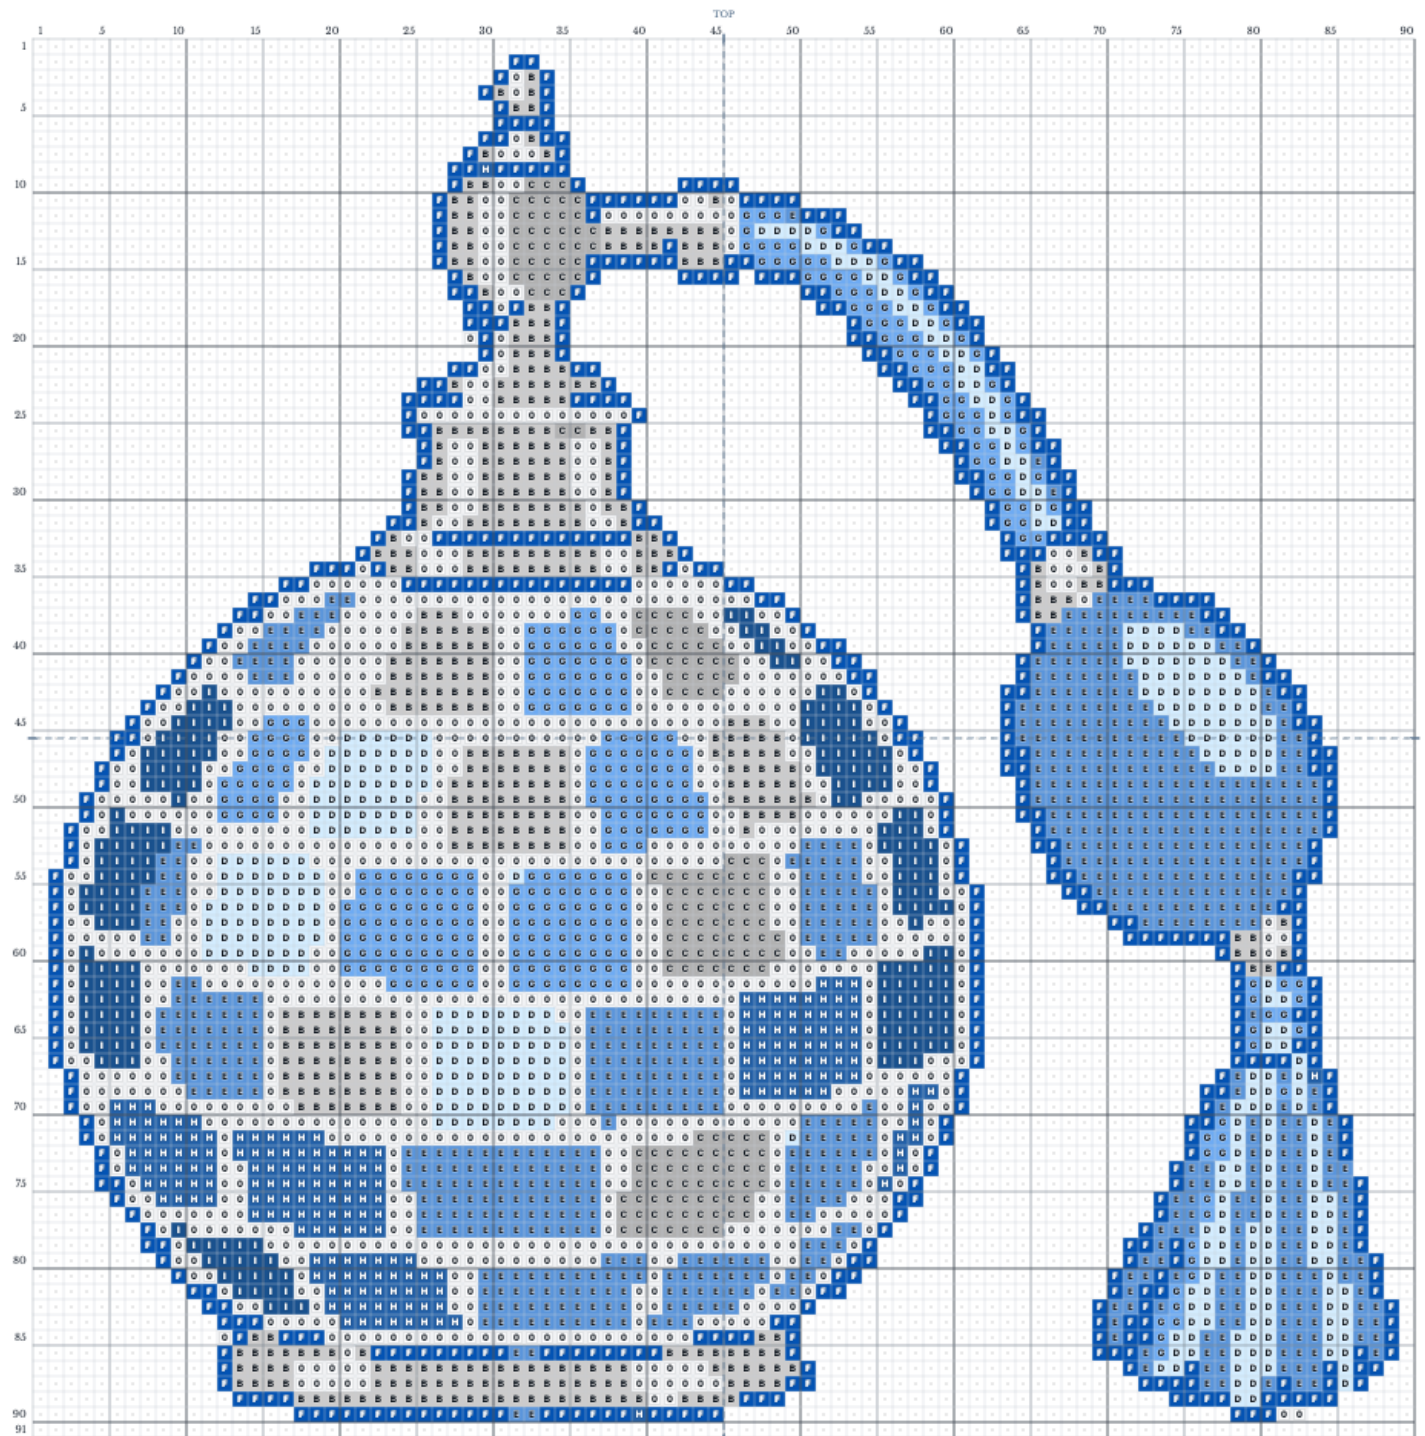

Painted crossing

One chart square = one painted canvas crossing

- Paint the horizontal and vertical strands where they cross.
- Keep the surrounding needle holes open.
- Find the canvas center before transferring the design.
- Use the five- and ten-stitch guides to count short sections.
- An odd stitch count has a center intersection.
- An even stitch count has a center between intersections.
- Test paint on scrap canvas.
- Work one color or nearby section at a time.
- Mark completed squares on the printed chart.
- A letter on white means intentional white paint.
- No letter or paint mark means bare canvas.

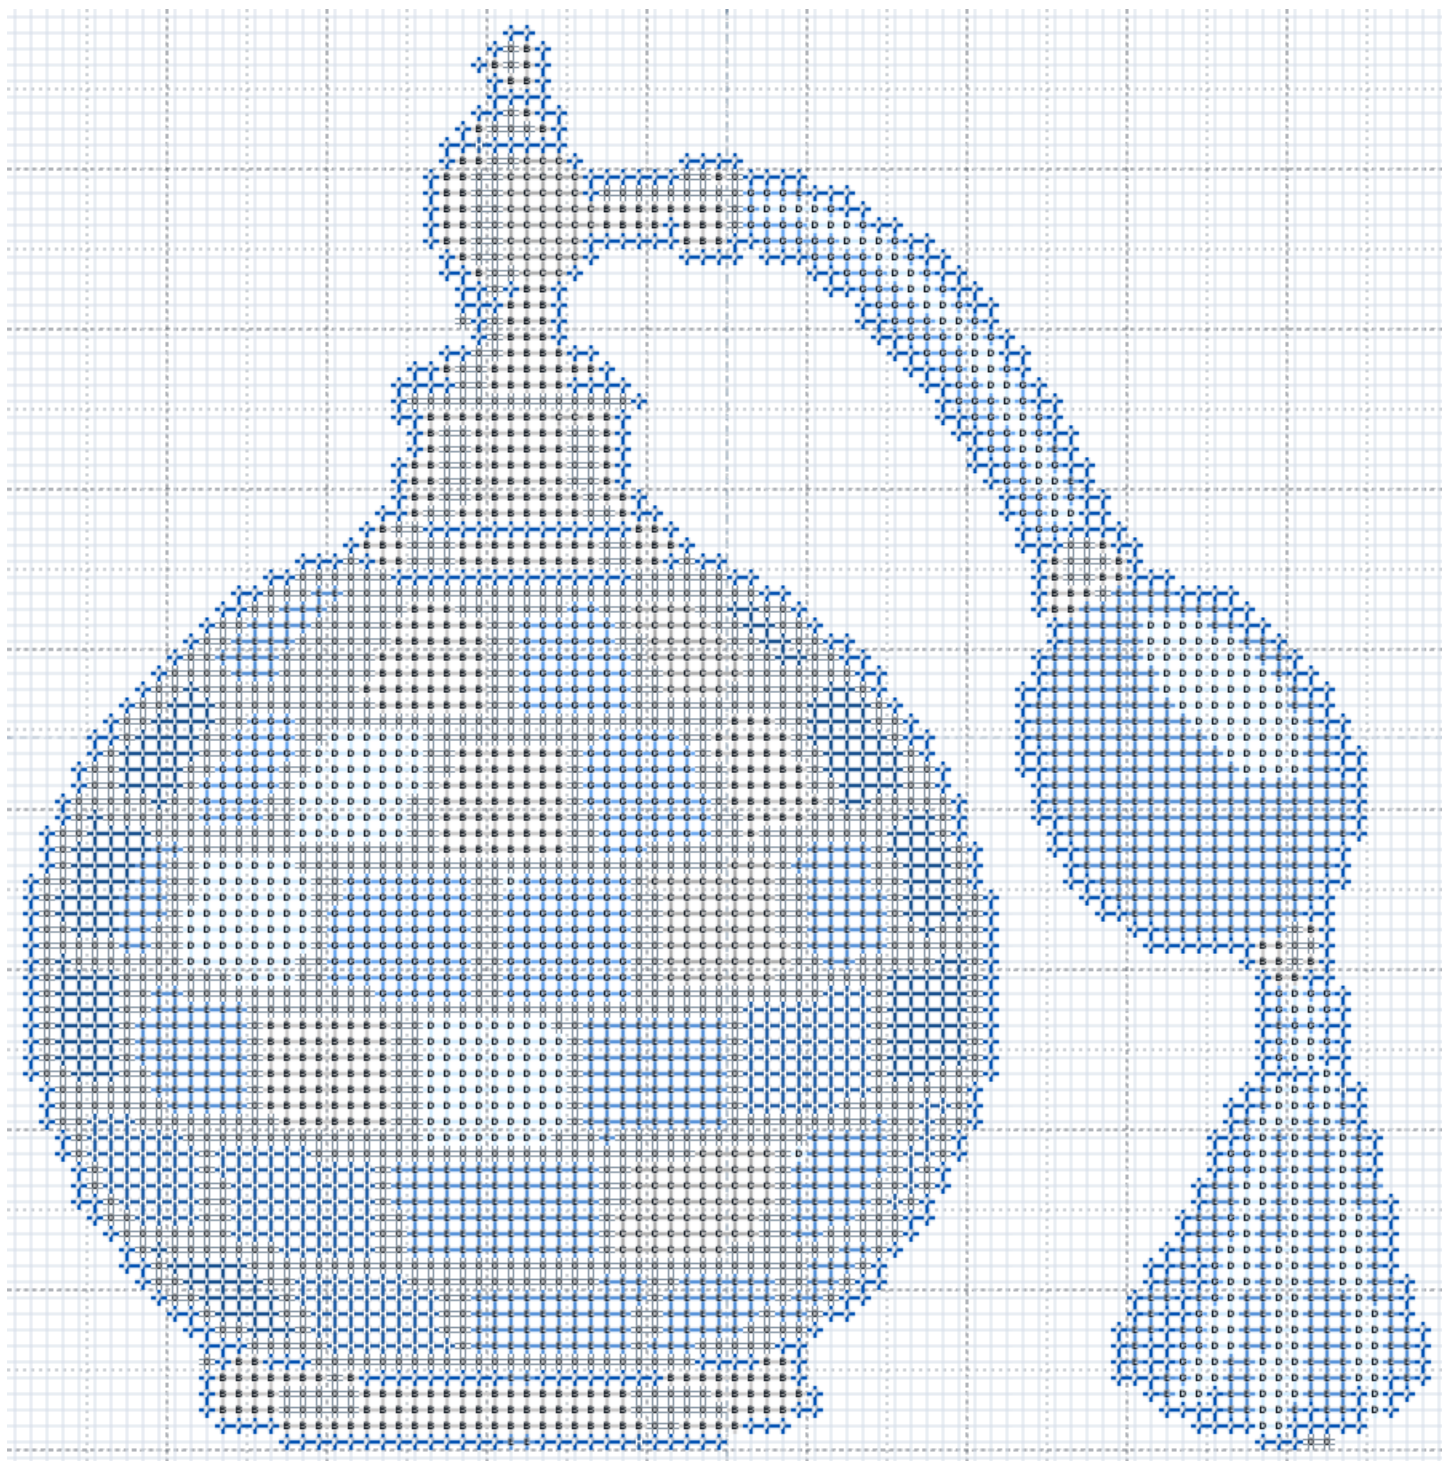

# Counted chart overview

Overview only / paint from the detailed count pages / 90 x 91 stitches / 18 mesh / slate-blue center guides

# Paint placement on canvas intersections

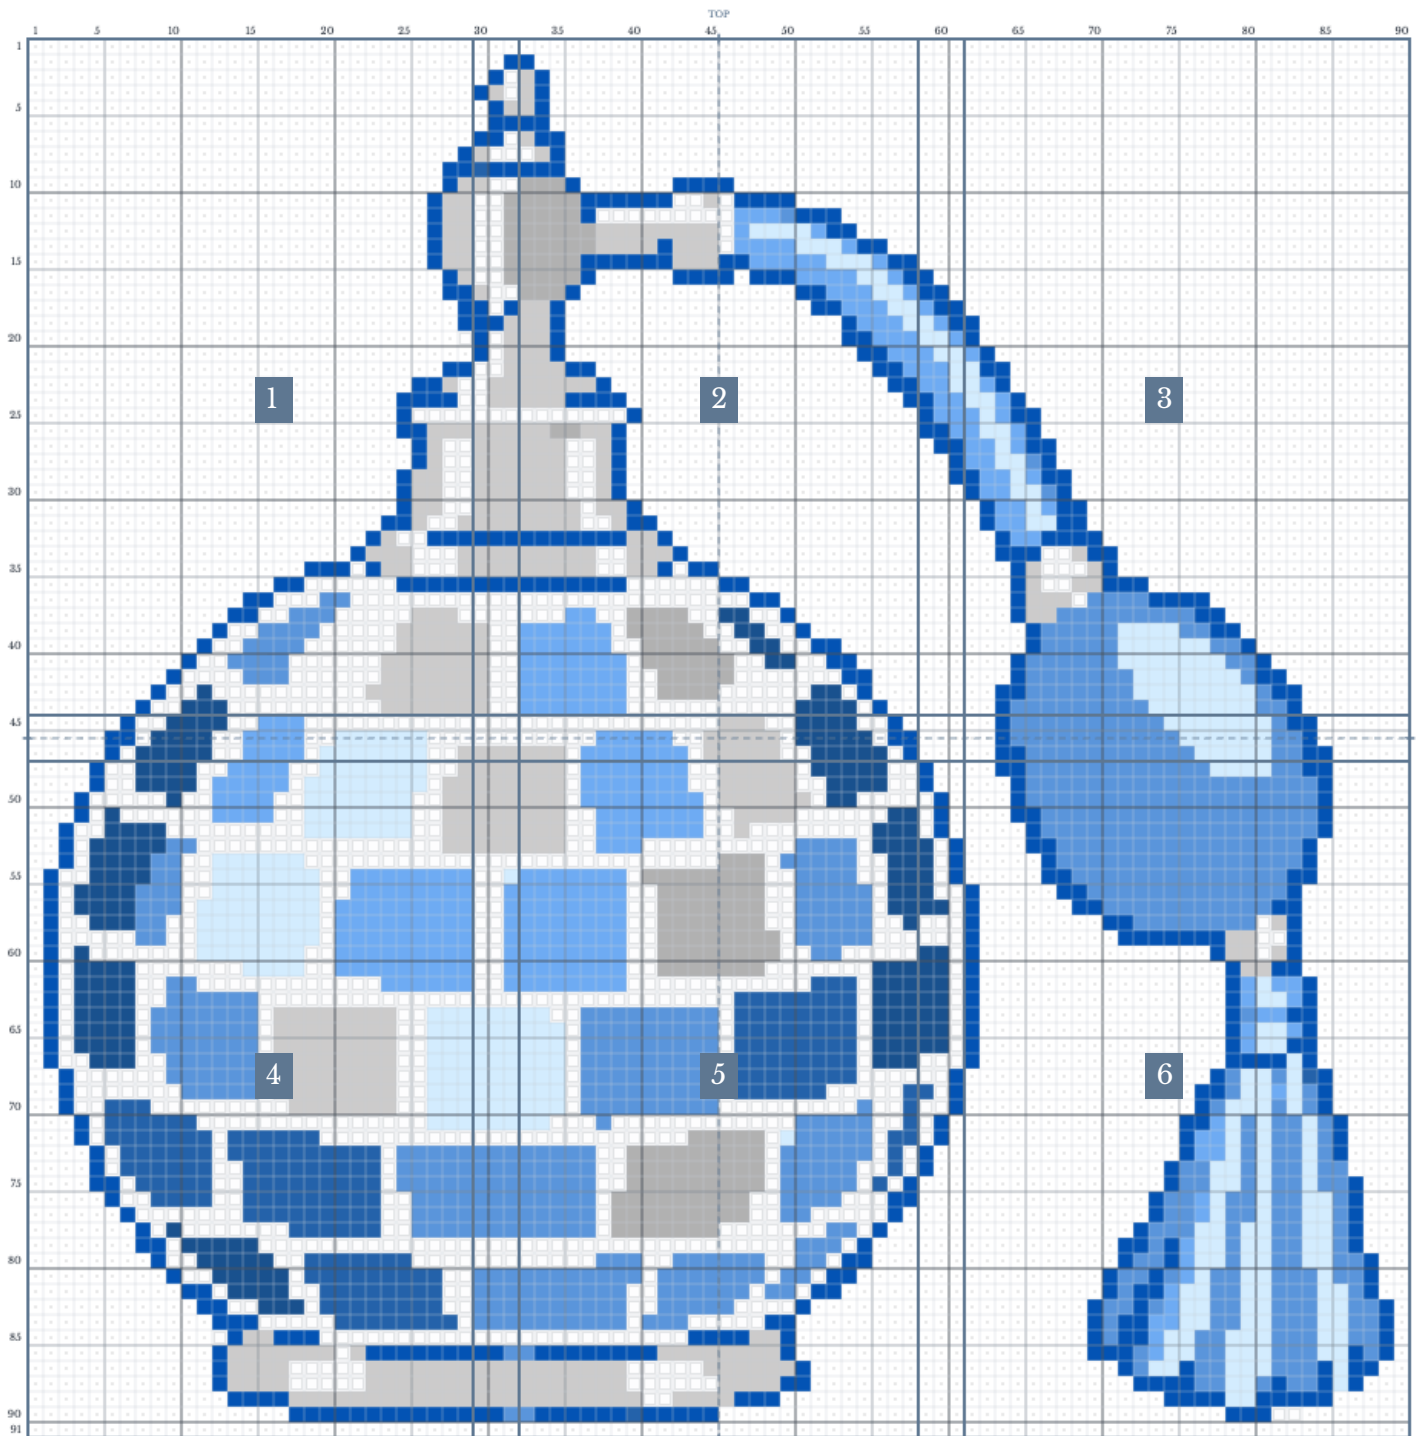

Use this view to see where paint belongs on the canvas. Use the detailed counted-chart pages for exact counting.

# Detailed-page map

Slate-blue boxes and numbers show the area covered by each detailed count page.

Page boxes overlap by 3 stitches. Count repeated stitches once.

# Detailed count page 1 of 6

Columns 1-32 / rows 1-47

Letter = paint; dot only = bare canvas.
